KHUSBU SAH

Hi, I am a Registered Nurse by professionally. Currently, I am a mom of one 20 months old girl and I have taken a break from my work for short period of time.

I am interested in data science to enhance my knowledge and to gain insights of data. I believe that this introduction to data science course will help me amplify my career in a better way. Also, it will boost my mastery in providing a better care to residents.

The code in cell 5 shows the multiplication of 3

In [5]: `3*1`

Out[5]: 3

- > |-----|-----|-----| ''' python

In []:
